# AMAZING CSS GENERATORS YOU'RE MISSING

Hey folks! ✌️
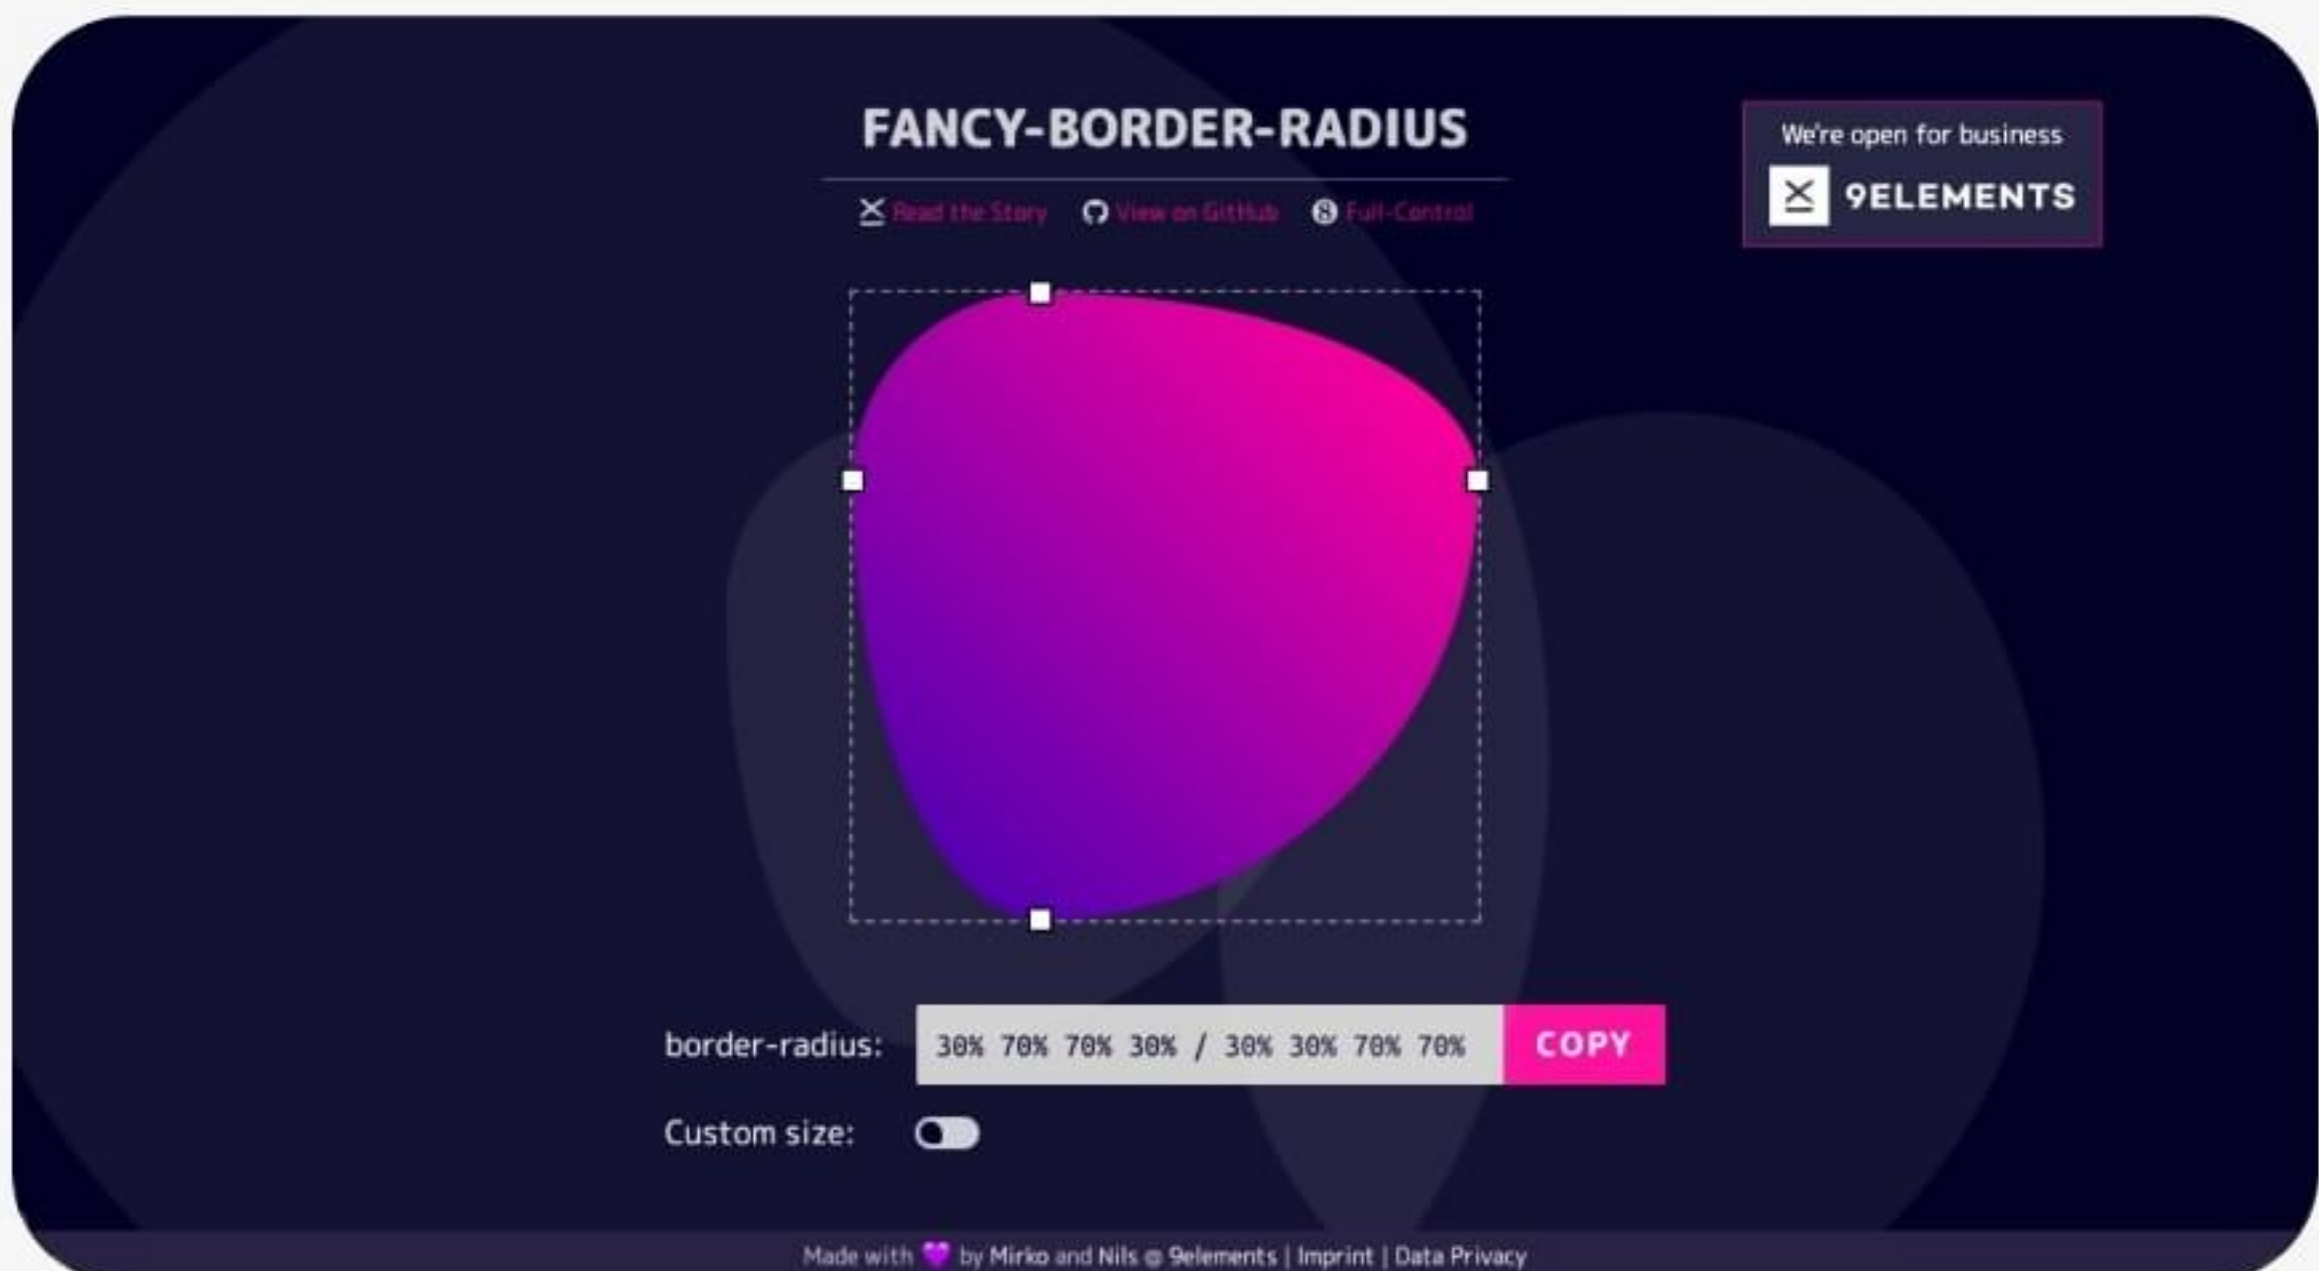

We all love CSS, but sometimes it can get tedious to work with. Why not saving some time with these generators? 👉

01

Fancy Border Radius

Generate organic shapes using
CSS3 border radius!

9elements.github.io/fancy-border-radius/

FANCY-BORDER-RADIUS

✕ Read the Story   ⚙ View on GitHub   ⑤ Full-Control

We're open for business
✕ 9ELEMENTS

border-radius: `30% 70% 70% 30% / 30% 30% 70% 70%` **COPY**

Custom size: ⬤

👉

02

Smooth Shadows

From colors to shapes, generate shadows as if it grapes!

shadows.brumm.af

03

Neumorphism

Revive this old trending with colors, gradients, and shadows!
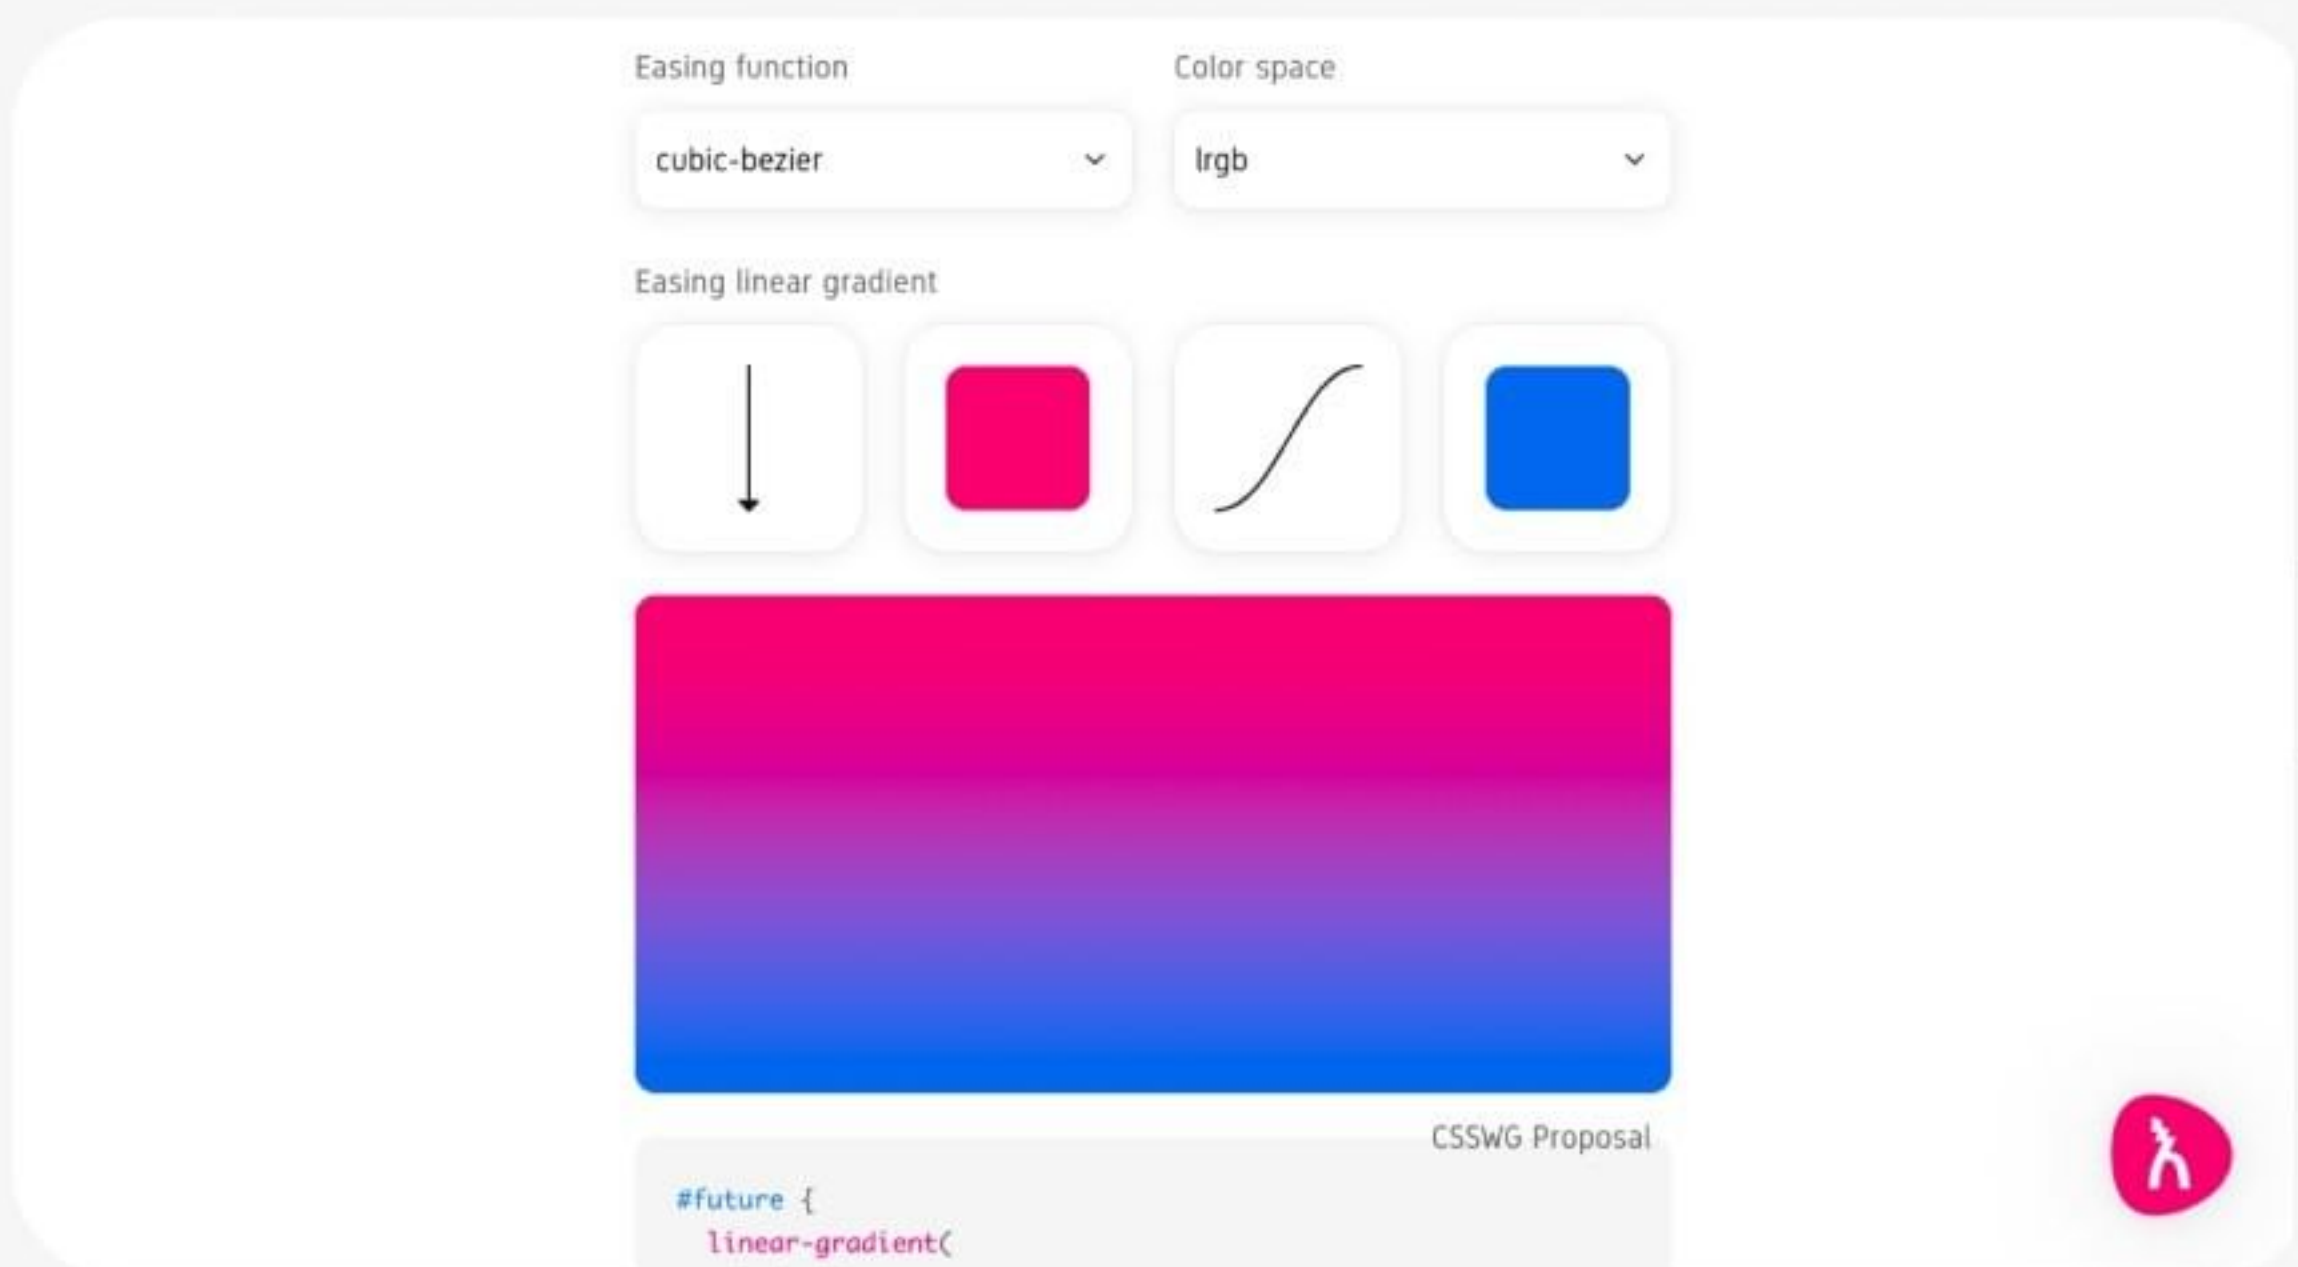

neumorphism.io

Neumorphism.io
Generate **Soft**-UI CSS code

Pick a color: ☐ or #e0e0e0

Size:

Radius:

Distance:

Intensity:

Blur:

Shape:

```
border-radius: 50px;
background: #e0e0e0;
box-shadow:  20px 20px 60px #bebebe,
            -20px -20px 60px #ffffff;
```
Copy

🔘 Buy me a coffee

This project is now **Open-Source!** ☆ Star on GitHub
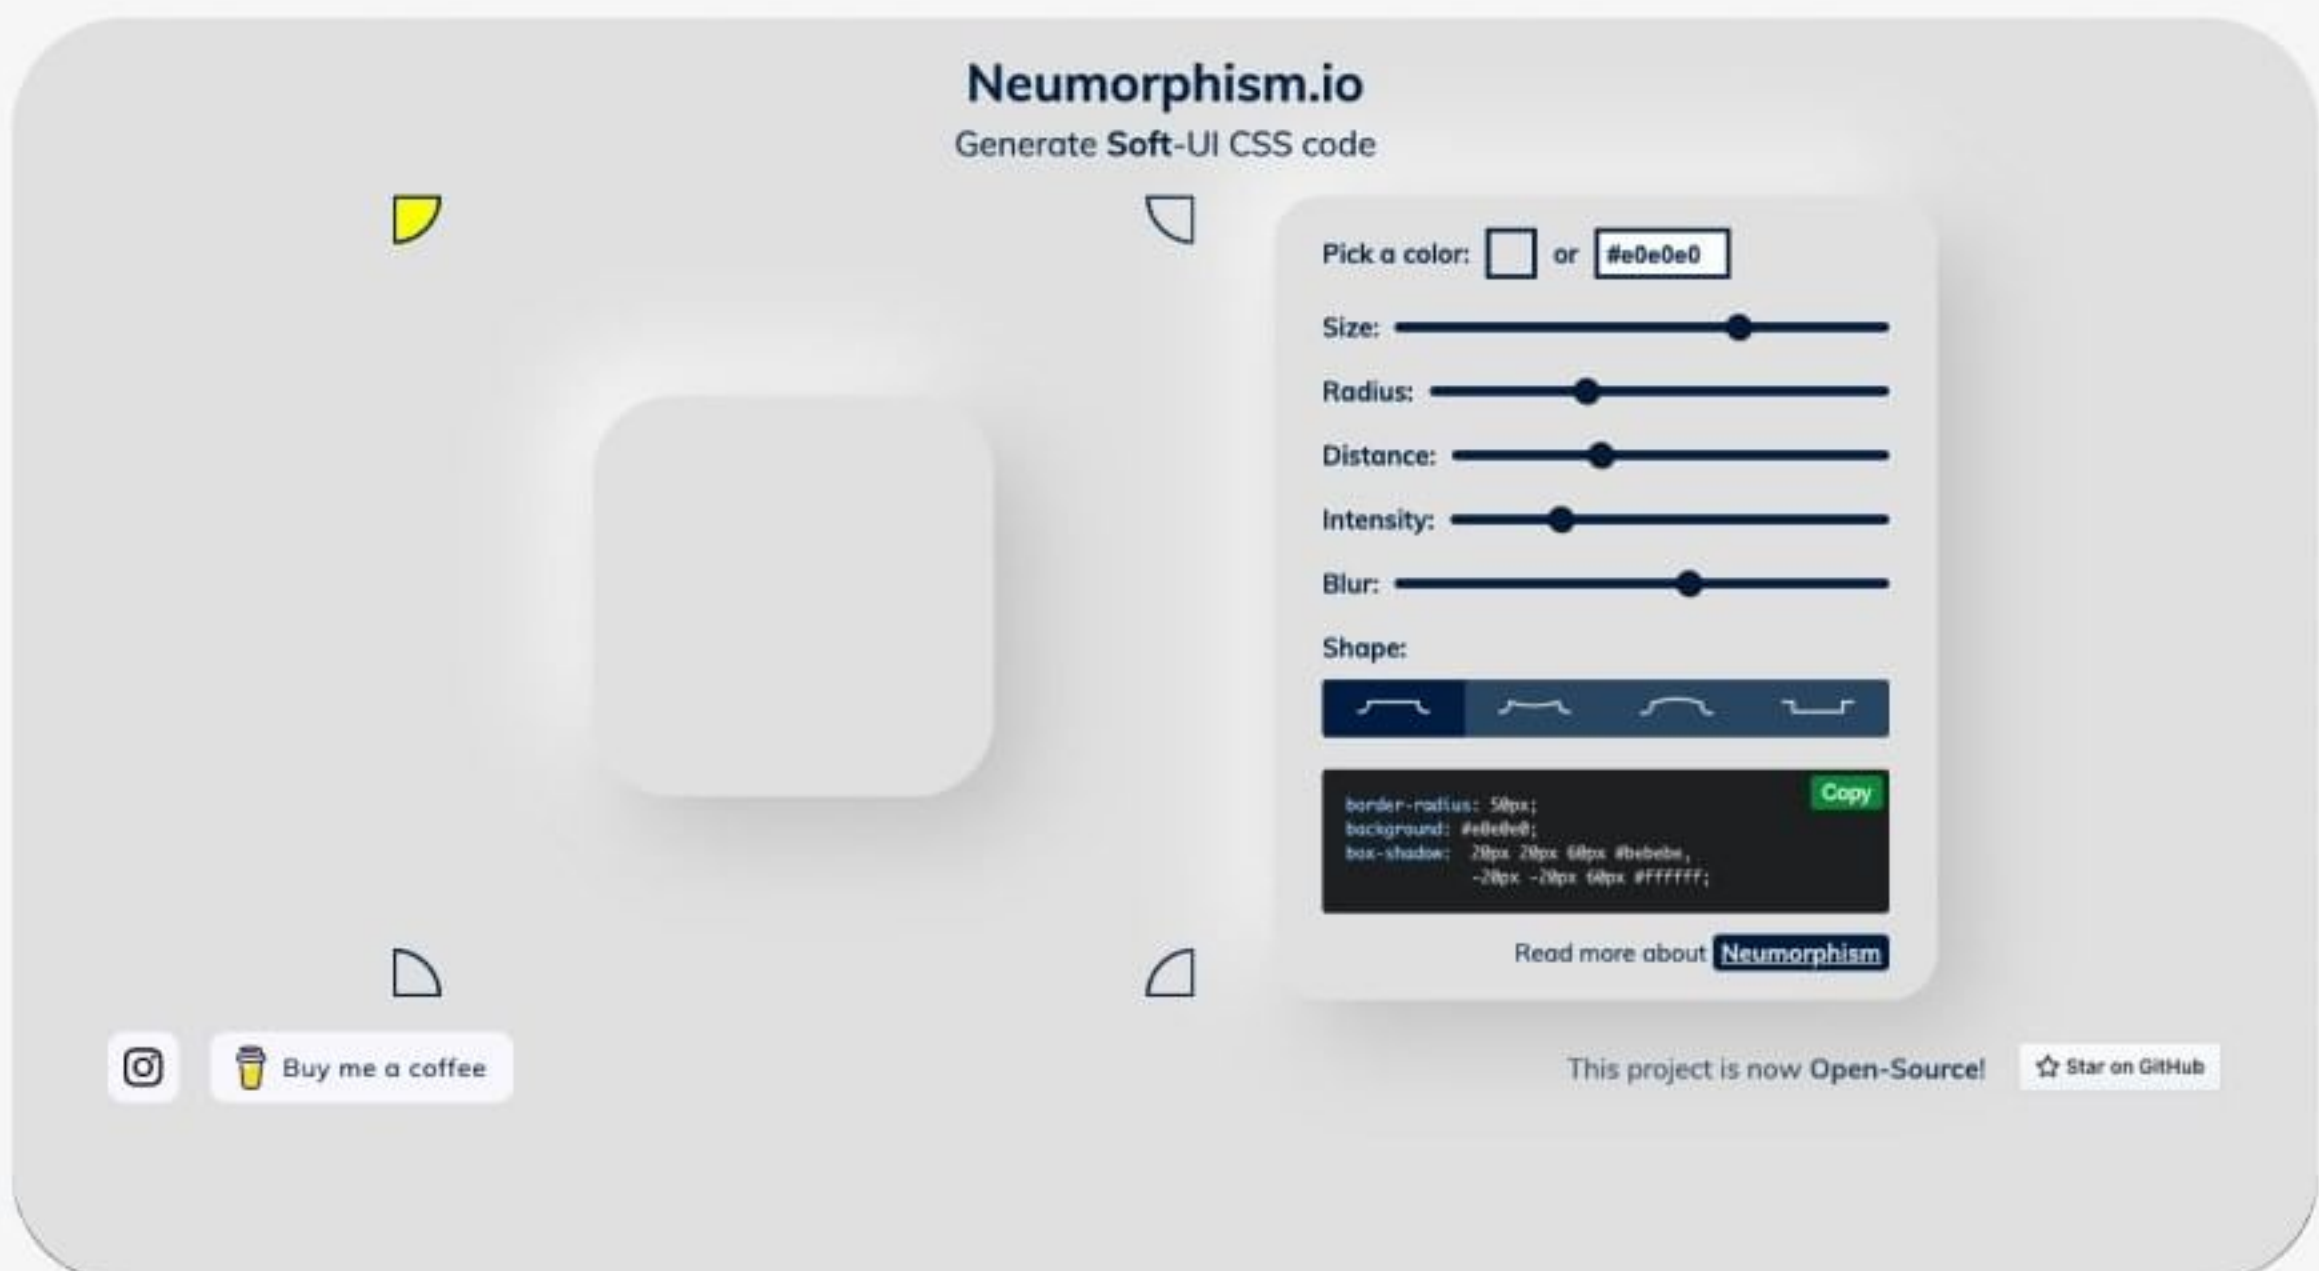

04

Easing Gradients

Charge your gradients with color mixes and custom spaces!

larsenwork.com/easing-gradients/

Easing function

cubic-bezier

Color space

lrgb

Easing linear gradient

CSSWG Proposal

```
#future {
  linear-gradient(
```

05

CSS Grid

Create, customize, and preview amazing layouts using this tool!

cssgrid-generator.netlify.app

06

Clip Path Maker

Create, select, and export your own shapes & combinations!

bennettfeely.com/clippy/

07

Get Waves

Customize your own frames/waves and export them in SVG!

getwaves.io
